

Breezbay Spa

Thai massage Oil massage Foot massage

English

What is Thai massage ?

Thai massage has its roots in a spiritual tradition, and its purpose is to heal a person physically, emotionally and spiritually. It was developed more than 2,500 years ago in India. Thai massage makes use of pressure points, which are called sen in Thailand. Practitioners of Thai massage claim that there are 72,000 sen in the body, of which ten are on the highest priority when it comes to doing the massage.

The massage uses passive stretching and gentle pressure along the body's energy lines to increase flexibility, relieve muscle and joint tension and balance the body's energy systems. It is both deeply relaxing and energizing.
